There's something inside I feel sorry about
So many times I've rejected your love
Countless times I've abused your name, I lived in darkness and shame

Too many times I've been breaking your law, so hard for all that you saw
To see me in a desperate state, hoping to turn, before it's too late

Take my hand and lead me in your will
My Jesus you died for me on that hill
I want you to be king, only to you I want to cling
Unto you I devote everything

Saviour Jesus come and save my life
Wash me with your blood from my guilt and strife
Only you can cleanse me from all my shame, that I may live without blame
Please don't give me up, instead lift me out

Spirit of God, come and fill me up, please live in me and feel at home
I need your strength and love day by day
Lead me in truth that I may find the right way
