

## **Faster, Bigger, Louder, Higher!**

Words & music © johnhaenni

I hear the horns of cars blow, flashing ads  
Rushed people, the effect of the show  
Faster, bigger, louder, higher  
Is this all we want to know

Do we believe that our creator  
Still can fill our needs to overflow  
So to his source and heart i go  
He fills me much more than this unreal goal

Despite the things i don't understand, my trust in him i now sow  
Letting true water of life flow, one day we will harvest  
When we trust him from head to toe

This hope is for everyone to know  
Let the love of Jesus really glow  
Deeds and words will overflow  
So much help, he's able to bestow  
In a time of desperation  
Let this blessing reach the poor  
The eyes of the rich be held low  
In open hearts true values can grow

Let mercy overcome performance  
Unconditional love be our romance  
This generous heart will make us dance  
To the poor and lonely we'll give a chance

Despite the things i don't understand, my trust in him i now sow  
Letting true water of life flow, one day we will harvest  
When we trust him from head to toe
